

ISHA NAROLA

Senior Consultant | MERN Stack Developer (React.js / Next.js)

ishanarola123@gmail.com | Surat, Gujarat, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with 3.5 years of experience designing and building scalable, production-grade web applications using React.js, Next.js, and Node.js. Delivered 5+ major projects, including applications serving 10,000+ users on AWS infrastructure with 99.9% uptime. Skilled in translating Figma designs into responsive, high-performance interfaces, building secure RESTful APIs, and implementing role-based authentication and authorization. Experienced in state management (Redux, Zustand, Context API), real-time data streaming, and full-stack architecture across client-facing enterprise projects. Mentored junior developers and led code reviews, with a strong track record of direct client communication, requirement gathering, and cross-functional collaboration in agile environments.

CORE SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
UI Frameworks	Bootstrap 5, Material-UI, Tailwind CSS, Radix UI, Shadcn, Framer Motion, React Hook Form
State Management	Redux, Redux Toolkit Query, Zustand, Context API, React Query, SWR, React Hooks
Backend & APIs	Node.js, Express.js, RESTful API Design, GraphQL, Python (working knowledge)
Database	MongoDB, MySQL — Schema Design & CRUD Operations
Auth & Security	JWT Authentication, AWS Cognito/Amplify, Firebase Auth, Role-Based Access Control, MFA
Cloud & DevOps	AWS Amplify, Firebase, Docker, Redis, Postman, VS Code
Testing & VC	Jest, Git, GitHub, Bitbucket
PM Tools	Jira, Trello, ClickUp, Asana, Monday.com

PROFESSIONAL EXPERIENCE

Narola Infotech Solutions LLP

Senior Consultant | January 2023 – Present

Techeeta — Real-Time Sports Analytics Platform

React.js, TypeScript, Redux, React Query, Firebase, D3.js, Electron.js, Python | Team of 2

- Built a real-time analytics platform that streams live sensor data (heart rate, distance, movement) from wearable sensors to track player performance.
- Developed interactive D3.js visualizations for football tracking, replays, and performance trend analysis.
- Implemented Firebase authentication with email verification and managed real-time data streaming via socket connections.
- Built a companion desktop application using Electron.js to connect multiple sensor hubs and process ASI data files.
- Delivered multi-language localization and Excel export functionality to support cross-region analytics teams.
- Managed application state across the platform using Redux and React Query, maintaining a responsive UI under real-time data load.

Recouple — Energy & Emissions Management Platform

React.js, Zustand, SWR, Jest, AWS Amplify/Cognito, Node.js, MySQL, Docker | Team of 3

- Developed a full-stack platform for tracking energy usage, emissions, and financial metrics across contracts, opportunities, and projects.
- Implemented AWS Amplify + Cognito authentication with Google login and multi-factor authentication (MFA), supporting role-based access for Admin, Manager, and Monitoring users.
- Built business logic to prevent overlapping contracts and timeline conflicts in emission factor tracking, improving data integrity.
- Developed scenario-based forecasting features, including economic-life expense modeling, cashflow projections, and reduction/target calculators.
- Built interactive dashboards for emissions, cashflows, and performance metrics, plus CSV upload and GPS-based site/asset mapping.
- Wrote and maintained Jest unit tests, and translated Figma designs into responsive, production-ready UI.
- Built reporting dashboards using Redis caching and Metabase to speed up data retrieval and visualization.

ESAI Work — Administrative & Reporting Platform

React.js, Context API, TypeScript, Recharts, MUI, Node.js, MongoDB, AWS Amplify | Team of 3

- Built a dual-interface (internal/external) reporting platform with role-based data views and multi-criteria filtering (by position, specialization, and stage).
- Developed a multi-feature data table supporting search, filter, sort, column pin/hide, and localized Excel export.
- Implemented REST APIs in Node.js and integrated them with the React frontend to power chart-based report visualizations.

- Partnered directly with the client on requirement gathering and translated Figma designs into responsive UI.

ESAI Jobs — Job Search Platform

React.js, Context API, TypeScript, Recharts, MUI, Node.js, MongoDB, AWS Amplify | Team of 2

- Designed and built a multi-lingual job search platform with advanced filtering, favorites, and shortened-URL job sharing via Short.io integration.
- Implemented Zoho meeting scheduling so candidates could book calls directly with recruiters from job listings.
- Led client communication and requirement gathering, and delivered a responsive, user-friendly backend-integrated application.

Shipnavi — E-Commerce Shipping Platform

React.js, TypeScript, Next.js, Redux, React Query, Tailwind CSS, Radix UI, Node.js | Team of 3

- Built a shipping-focused e-commerce platform with product variants, bidding, wishlist, and shopping history features.
- Implemented authentication, an optimized checkout flow, multiple shipping options, and secure payment handling.
- Developed the UI to be responsive, cross-browser compatible, and fast-loading, following Figma designs closely.

Diamond Factory Management System — Workforce & Payroll Platform

React.js, TypeScript, Node.js, Express.js, MongoDB, Material-UI, JWT, React Hook Form | Team of 1 | 2026

- Built a workforce and payroll management system for a diamond manufacturing business, digitizing production tracking, employee management, and monthly payroll reporting.
- Automated manual payroll processes and delivered PDF/CSV export capabilities for detailed reporting.
- Delivered secure admin authentication and full CRUD-based employee and department management as the sole developer on the project.

EDUCATION

B.E. in Information Technology — Sarvajani College of Engineering & Technology (SCET), Surat

Gujarat Technological University | 2019–2023 | CGPA: 9.63/10 | Gold Medalist, SCET B.E. IT

Higher Secondary Certificate (HSC) — Gujarat Higher Secondary Education Board

2019 | 81.00% (Merit in three main subjects: 86%)

Secondary School Certificate (SSC) — Gujarat Secondary Education Board

2017 | 89.33%

CERTIFICATIONS

- React.js Skill Certification — HackerRank
- JavaScript Skill Certification — HackerRank
- SQL Assessment — HackerRank
- MongoDB Certification — Great Learning
- Responsive Website Development (HTML, CSS, JS, Bootstrap) — EDUCBA
- C Language Certification — Santa Cruz, California
- Android App Development Course — Great Learning
- Android Nougat Mobile App Development Training — EDUCBA

ACHIEVEMENTS, COMPETITIONS & HACKATHONS

- 2nd Place — WYSIWYG Web Designing, Techfest Converse 2021 (State Level)
- 2nd Place — BugBuzz, Techfest Converse 2022 (State Level)
- 1st Place — Story Writing Competition (Intra-College Level)
- 1st Place — Interschool Essay Competition, Sharadayatan School
- Winner — Certificate of Excellence, Content Writing Competition (Unstop)
- Consolation Prize — Interschool Creative Educational Material Competition, Vanita Vishram
- TechPrexa 2022 Hackathon — Dronacharya College of Engineering & GeeksforGeeks
- App Coding Contest — IIT Hyderabad | TCS CodeVita Programming Contest | Newton's Coding Challenges
- National Level Talent Search Examination — JCI India
- TechGig Geek Goddess 2022 — Finalist | Decrypto 2.0 — ELICIT'22
